Report Title: Near Final Outturn Revenue Budget Monitoring for 2023/24 and Service

Performance Reporting for Q1 2024/25

Report By: Assistance Chief Executive - Place

1. Purpose/Executive Summary

- 1.1 The report provides Members with the near final outturn revenue budget monitoring statement for 2023/24. The Service budget is £43.734m with a predicted year end overspend of £1.962m (4.49%).
- 1.2 This report also provides performance information on:
 - Corporate Indicators
 - Contribution to the Performance Plan
 - Service Plan Progress
 - Mitigation of Service Risks
 - Service updates out with the Corporate Indicators or Service Plan

The content and structure are intended to:

- assist Member scrutiny and performance management
- · inform decision making to aid continuous improvement, and
- provide transparency and accessibility

2. Recommendations

- 2.1 Members are asked to:
 - i. CONSIDER the Service's revenue monitoring position; and
 - ii. **SCRUTINISE** the Service's performance and risk information.

3. Implications

3.1 **Resource** - These are described throughout the report including discussing the latest budget positions.

- 3.2 **Legal** This report contributes to the Council's statutory duties to report performance and secure best value in terms of; Section 1(1)(a) of the Local Government Act 1992, and Section 1 of the Local Government in Scotland Act 2003, respectively.
- 3.3 **Risk** Risk implications to the budget position will be kept under regular review with updates reported to this Committee.
- 3.4 Health and Safety (risks arising from changes to plant, equipment, process, or people) There are no immediate health and safety implications arising from this report.
- 3.5 **Gaelic** There are no implications for Gaelic arising from this report.

4. Impacts

- 4.1 In Highland, all policies, strategies or service changes are subject to an integrated screening for impact for Equalities, Poverty and Human Rights, Children's Rights and Wellbeing, Climate Change, Islands and Mainland Rural Communities, and Data Protection. Where identified as required, a full impact assessment will be undertaken.
- 4.2 Considering impacts is a core part of the decision-making process and needs to inform the decision-making process. When taking any decision, Members must give due regard to the findings of any assessment.
- 4.3 This is a monitoring report and therefore an impact assessment is not required.
- 5. Communities and Place Revenue Budget Near Final Outturn 2022/23
- 5.1 The near final outturn revenue budget monitoring statement for 2023/24 showing net position can be found at **Appendix 1** and the gross position at **Appendix 2**.
- 5.2 The near final outturn position at year end was £45.696m against a budget of £43.734m which represents an overspend of £1.962m (4.49%).
- 5.3 Members are reminded that the pressures in 2023/24 continued to be higher vehicle lease and contractor costs. In an addition to this, the sale of lairs was lower than anticipated. These were partially offset by staff underspends and higher than anticipated achieved income within the Waste Management service. The Administration heading includes all the Service's unallocated efficiency savings from previous years which are yet to be allocated permanently to the other budget headings in the Service.

6. Service Performance – Corporate Indicators

6.1 Service performance in relation to Absence, Complaints, FOIs, and Invoice Payments are set out in the following sub-sections.

6.2 Service Attendance Management

Staff absence is a nationally benchmarked indicator. Effective absence management supports staff, maintains productivity, and contributes to the Council's benchmarked performance. In Q1 the Service lost an average of 4.21 days per employee compared to an average of 3.24 for the Council as a whole.

Average number working days per employee lost through sickness absence

| Average Days Lost | Q2 22/23 | Q3 22/23 | Q4 22/23 | Q1 23/24 | Q2 23/24 | Q3 23/24 | Q4 23/24 | Q1 24/25 |

| Communities and Place | 3.45 | 2.74 | 3.60 | 3.80 | 4.27 | 4.38 | 4.31 | 4.21 |
| Highland Council | 1.58 | 1.89 | 2.88 | 2.48 | 2.08 | 3.35 | 3.48 | 3.24 |

6.2.1 The Service will continue to focus on increased engagement and support to staff utilising all HR Policies available to improve this area. This includes fully utilising the Occupational Health services and critically appraising the range of data including long-term absences to better understand the reasons for absence and how best to support staff back into work wherever practicable. The HR Attendance Support Officers continue to play an important role in assisting both managers and employees and their support extends to situations where absence has become very complex or when an employee faces a life changing or terminal diagnosis.

6.3 Service Complaints Response Times

Monitoring complaints provides important feedback which can facilitate decision making and service design. Services are responsible for responding to complaints which are issued on their behalf by the Customer and Resolution Improvement Team ('CRIT').

Performance for complaints during Q1 against a corporate target of 80% was as follows:

Complaints - Communities and Place

Performance of frontline complaint handling continues to be above the corporate target. Just under half of investigation complaints are delivered within the required timescale and this remains an area of focus for the service.

FOI requests are co-ordinated by CRIT in collaboration with the Service teams which may hold information relevant to the request.

The performance for FOI response times during Q1 against a corporate target of 90% was as follows:

Freedom of Information Requests - Communities and Place

Tables display the number of FOIs closed within the quarter and % of those that were compliant with the legislative timescale (20 working days) for the service and the Highland Council overall.

The Scottish Information Commissioner requires the Council to achieve a minimum compliance rate of 90%.

Q1 performance fell slightly short of the target of 90%, although improving on the previous quarter, and continues to compare favourably to Council performance. The number of FOIs remains high and represents around a fifth of all those received within the organisation.

6.5 Service Invoice Payment Times

Payment of invoices within 30 days of receipt is a Council Statutory Performance Indicator (PI). The Council also monitors the number of invoices paid within 10 days of receipt.

The performance for invoice payment times within 30 days and 10 days during Q1 against a target of 95% and 77%, respectively, was as follows:

Communities and Place - Invoice Payments

| Invoice Payment within 30 days | Q2 22/23 | Q3 22/23 | Q4 22/23 | Q1 23/24 | Q2 23/24 | Q3 23/24 | Q4 23/24 | Q1 24/25 |

| Communities and Place | 78.6 % | 75.2 % | 72.7 % | 81.2 % | 90.6 % | 89.2 % | 86.0 % | 49.7 % |
| Highland Council | 73.4 % | 70.4 % | 71.6 % | 72.8 % | 80.9 % | 75.3 % | 69.7 % | 57.0 % |

There has been a reduction in invoice payment time performance compared to previous quarters, where performance consistently was above target. This is reflected across the organisation and is assessed to be related to the introduction and implementation of the new finance system in the first quarter of 2024/25. It is anticipated that performance will return to previous levels in the next quarter.

- 8.7 Overall, progress against the PIs and actions is very positive. Key points of note would be:
 - Review of customer services processes, is reporting some slippage which relates to finalising documentation and will be complete in the coming weeks
 - The lean review of burials administration aims to be completed by December 2024. This has been delayed due to competing priorities and limited resources.
 - Work on the development of a community volunteering policy will recommence during Q2. Delivery of the policy continues to report some slippage which relates to a change in staffing.
 - Through the work being undertaken with our Project Design Unit, the delivery of the Lochaber waste transfer station is forecast to be constructed and fully operational by May 2025.
 - The delivery of two bulky waste shredders is on target to be installed and fully operational by April 2025.

9. Service Risks Mitigation

9.1 The Service is further developing the administration of the Service Risk Register to be managed on PRMS (Performance and Risk Management System). This includes delivery of key projects, availability of parts/stock/vehicles, finance and sustainable workforce.
