| Report Title: | Health and Social Care - Revenue Monitoring Budget and Performance Report – Quarter 2 2024-2025 |
| Report By:    | Assistant Chief Executive - People  |

# 1. Purpose/Executive Summary

- 1.1 This report provides Members with a revenue monitoring and forecast position in relation to Quarter 2 for 2024/25. Members will recall that there was no reporting in terms of Quarter 1 as the result of the adoption of the new financial system. As such this monitoring report represents the first input for this financial year. Appendix 1 sets out the details in relation to the Monitoring for Quarter 2. This report also reflects the Quarter 2 budget monitoring and forecast position and is the first reporting to Strategic Committees using the new Corporate Financial System implemented in April. Members will note from Appendix 2 an example of the style of blended graphical/tabular data available from the new system to budget holders, with further development work over the course of this year to realise further benefits from the new system. This appendix is provided as a work-in-progress illustration given aspects of the reporting dashboards are still being developed.
- 1.2 Members will recall that budget savings for 2023/24 were not achieved in full. As a result, the current forecasts take into account the overall position in terms of unallocated savings from 2023/24 in the sum of £1.9m, together with savings in relation to 2024/25. Those savings amount to a further £1.4m in year. To date, savings of £350 000 can be marked as achieved. Accordingly, Members should note in terms of the current position that an overspend is forecast. That overspend amounts to £2.2m against an annual budget of £188.679m. The position is concerning and work is underway to address this and is expanded upon in the main body of the report.
- 1.3 This report also provides performance information on:
  - Corporate Indicators
  - Contribution to the Performance Plan (previously known as the Corporate Plan)
  - Service Plan progress
  - Service updates outwith the Corporate Indicators or Service Plan.

The content and structure is intended to:

- Assist Member scrutiny and performance management
- Inform decision making to aid continuous improvement

- Provide transparency and accessibility.
- 1.4 For the purpose of this report, details have been provided from the PRMS dashboard showing the latest updates on the HSC Service Plan for 2023/24 where actions have continued into 2024/25. Information is also included in relation to those indicators which are relevant for Adult Care Services. The Committee will be aware of services delivered by NHS Highland that form part of separate assurance reporting.

# 2. Recommendations

- 2.1 Members are asked to:
  - i. **Consider** and **note** the forecast revenue position as at Q2 of the 2024/25 financial year.
  - ii. **Note** the progress update provided in relation to budget savings delivery.
  - iii. Scrutinise and note the Service's performance and risk information.

# 3. Implications

- 3.1 **Resource** There are no specific recommendations at this time with particular implications to highlight. As noted below in the risk section, there remains ongoing uncertainty and challenge in financial forecasting current. There may also be resource implications in terms of the continuing delivery of adult social care and details in relation to that will be provided. The Committee will be aware too that there are resource requirements as a result of the Delivery Plan which is being implemented and those will be commented upon where appropriate in terms of that reporting process. The forecast overspend is of concern and work is ongoing to address this.
- 3.2 **Legal** No particular implications to highlight. This report contributes to the Council's statutory duties to report performance and secure best value in terms of: Section 1(1)(a) of the Local Government Act 1992, and Section 1 of the Local Government in Scotland Act 2003, respectively.
- 3.3 **Risk -** There remains the risk of changes in circumstance that may have an adverse variance on financial forecasts.

The risk in relation to the adult care service delivered by NHS Highland is ongoing and NHS Highland is currently forecasting an overspend, the terms of which are regularly discussed at the Joint Monitoring Committee.

The Committee will be aware too that a savings target of £12m was set against the delivery of Adult Social Care over three years from 2024/25. There is a risk that savings allocated against year one may not be fully delivered in-year, therefore a review will be taken to consider the profiling of the £12m savings which will be reported back to a future committee. There remains a risk in relation to certain elements of care delivery as referenced within the Council's Corporate Risk Register and that risk remains relevant. The Partnership has also developed its own risk register which has been shared at this Committee and is available online as part of the papers to the JMC.

The risk of an overspend in terms of children's services also requires to be highlighted. This Committee are sighted on the number of vacancies across the Family Teams and whilst these vacancies can be used to address that overspend on a short term basis the Committee are aware that such a risk has an impact on ongoing safe service provision. That risk is reflected in the Council's Corporate Risk Register.

- 3.4 **Health and Safety (risks arising from changes to plant, equipment, process, or people) -** There are no immediate health and safety implications arising from this report.
- 3.5 Gaelic No particular implications to highlight.

### 4. Impacts

- 4.1 In Highland, all policies, strategies or service changes are subject to an integrated screening for impact for Equalities, Poverty and Human Rights, Children's Rights and Wellbeing, Climate Change, Islands and Mainland Rural Communities, and Data Protection. Where identified as required, a full impact assessment will be undertaken.
- 4.2 Considering impacts is a core part of the decision-making process and needs to inform the decision-making process. When taking any decision, Members must give due regard to the findings of any assessment.
- 4.3 This is a monitoring report and therefore an impact assessment is not required.

#### 5. Quarter 2 Monitoring Position 2024/25

5.1 **Appendix 1** sets out the Q2 monitoring position for the current financial year. An overspend is forecast of £2.268m against a budget for the year of £188.679m. This is contributed to by the need to deliver savings in 24/25 of £1.408m, together with unallocated savings from 23/24 of £1.9m. As such the service is required to deliver savings in year of £3.308m. At the time of writing this report savings of £350 000 have been marked as achieved and more are anticipated which will reduce the current forecasted overspend

Officers have not yet been able to consider current financial information in sufficient detail in order to allocate savings which have been identified for 24/25 against the appropriate budget lines. The figures are being considered in relation, in particular, to the Families First initiative and the associated Home to Highland programme. Savings of £600 000 are required in terms of that programme and at present those are showing as unallocated. The Service is, however, confident that savings at this level can be delivered. Further work will be required to achieve balance overall and that work is ongoing.

The Committee is aware that historically the Service has had reliance on vacancies to balance the budget and it is likely that this will be also be the case this year. It must however be noted that whilst they contribute to the delivery of a balanced budget, the vacancies do not represent a saving. Accordingly there is work to be completed to seek to complete the realignment of budgets for Looked After Children to show the work that the service has done in terms of the Families First approach.

It should be noted that at the time of writing there is no final information from NHS Highland in terms of the budget which is passported over for the delivery of the Child Health Service and as such it is expected that once confirmed, it will have a positive impact on the figures before the Committee given that the monitoring statement as currently drafted is based on the income for 23/24.

Savings to be delivered by NHS Highland in relation to the delivery of adult social care are not part of this narrative and are referenced in para 5.3 below.

- 5.2 Members will recall from previous reports, the positive trends being shown in Looked After Children, with the relevant forecast showing that the number of children in out of authority residential provision is consistently at the lowest level it had been at for some years. Home to Highland, which forms part of the broader Families First initiative, continues and produced savings last year of £1m in terms of the looked after children elements of the budget. Those are lines where historically the service has shown significant overspends. That work will require to continue going into 24/25 in order to achieve the required saving (£600 000) and it is hoped that improved performance may also allow the legacy savings to be addressed. It must however be noted that there do remain significant challenges in terms of the Looked After Children spend and associated challenges in predicting future spend.
- 5.3 Members will be aware of the significant challenges which exist in terms of the delivery of those adult care services by NHS Highland. At the present time delayed hospital discharges and the availability of care have been a significant focus for the Scottish Government as well as the Health & Social Care Partnership. The delivery of adult social care and the associated funding is discussed at the Joint Monitoring Committee, and there remain regular and ongoing discussions on financial matters between Senior Officials within both organisations. Due to current significant pressures within adult social care, close partnership working is necessary to seek to deal with potential budget pressures.

Members will recall that the Council has adjusted the funding provided to NHSH by the £7m saving target for 24/25, and officers from both organisations are working jointly regarding change and transformation and saving measures in terms of both this target and the wider target which extends over 3 years. Members will also be aware that sitting alongside the savings target is the allocation of reserves of up to £20m over the next 3 years to support changes in the current care model, consistent with the Partnership's Strategic Plan and progressed through the operational Delivery Plan. This investment, and the concomitant improvements it should help realise, will lead to reduced costs and take the pressure of the current bed based care model.

At the present time NHS Highland are reporting savings of £1.55m against this target with further savings to be achieved by cost reduction.

# 6. Service Performance – Corporate Indicators

6.1 Service performance in relation to Absence, Complaints, FOIs, and Invoice Payments are set out in the following sub-sections.

# 6.2 <u>Service Attendance Management</u>

Staff absence is a nationally benchmarked indicator. Effective absence management supports staff, maintains productivity, and contributes to the Council's benchmarked performance. In Q1 2024/25, the Service lost an average of 3.41 days per employee compared to an average of 3.24 for the Council as a whole.

#### 6.3 <u>Service Complaints Response Times</u>

Monitoring complaints provides important feedback which can facilitate decision making and service design. Services are responsible for responding to complaints which are issued on their behalf by the Customer and Resolution Improvement Team ('CRIT').

Performance for complaints during Q1 against a corporate target of 80% was as follows:

#### Complaints - Health and Social Care

It should be noted that many Social Work complaints are by their very nature complex, and the time needed to thoroughly investigate and respond to these complaints in an appropriate manner is often significantly longer than 20 days. In many instances, an extension of time is agreed in advance with the complainant who is entitled to receive a fully investigated report rather than one which is compiled to meet the 20 day timescale. In cases where this happens, the agreed extension to time **is not** taken into account in the figures shown above. It should also be noted that the total number of formal complaints is very small and so any failure to meet the deadlines has a disproportionate impact on the percentage figure.

Please note that Qtr. 2 was not yet available at the time of writing this report.

# 6.4 <u>Service Freedom of Information ('FOI') Response Times</u>

FOI requests are co-ordinated by CRIT in collaboration with the Service teams which may hold information relevant to the request.

The performance for FOI response times during Q1 against a corporate target of 90% was as follows:

| F                                      | Freedom of Information Requests - Health and Social Care |          |     |       |       |             |          |       |          |             |       |          |     |       |       |       |

Tables display the number of FOIs closed within the quarter and % of those that were compliant with the legislative timescale (20 working days) for the service and the Highland Council overall. The Scottish Information Commissioner requires the Council to achieve a minimum compliance rate of 90%.

Please note that Q2 was not yet available at the time of writing this report.

#### 6.5 <u>Service Invoice Payment Times</u>

Payment of invoices within 30 days of receipt is a Council Statutory Performance Indicator. The Council also monitors the number of invoices paid within 10 days of receipt.

The performance for invoice payment times within 30 and 10 days during Q1 against a target of 95% and 77%, respectively, was as follows:

| Invoice Payment within 30<br>days    | Q3<br>22/23 | Q4<br>22/23 | Q1<br>23/24 | Q2<br>23/24 | Q3<br>23/24 | Q4<br>23/24 | Q1<br>24/25 | Q2<br>24/25 |

**Red RAG Comment** The first round of training of the trainers was completed and the training team was starting to develop by June 2023. The training programme planning, preparation and practice and administrative support were in place/completed by October 2023. Training courses started after this time with two courses run between October 2023 and the end of March 2024.

**Comment on Kinship Care** - The lack of increase in overall figures underlies the service's plans to develop a specific Kinship Team to find family members, assess potential carers and offer support thereafter. Proposal have been submitted in respect of this and agreed but funding still needs to be secured. Whilst the number of children looked after in kinship has not risen in line with the target, there has been an increase of children living in kinship arrangements under a residence order. In June 2024 there were 135 children across 100 households that had residence orders, an increase of 12 from the previous year. These children are cared for by friends & family, but they are not officially classed as looked after children by the Scottish Government in data returns.

Where data for 2023/24 has not been provided this is because it will not be available until later in the year once the information has been processed and verified by the Improvement Service.

# 8. Service Plan Progress

8.1 In terms of the Service Plan for the Health and Social Care Service there are several actions and indicators which are considered regularly by officers to monitor service performance. Members will note that these indicators relate to the delivery of children's services (both social work services and the commissioned Child Health Service) as well as the Justice Service and the Mental Health Officer Service which sit within the Highland Council. Further indicators in relation to the service's workforce development and quality assurance are also included. This detail which is recorded on the Council's Performance and Risk Management System (PRMS) is included as **Appendix 3** to this Report.

- 8.2 Adult Care Services are delivered by NHS Highland and there are 3 specific SPIs which are formally reported upon. Details in relation to those are included at **Appendix 3**.
- 8.3 As the main focus of work this year has been establishing the programmes and projects within the Council's new Delivery Plan and the development of meaningful measures of success and milestones, there is no updated Service Plan for 2024/25. This report therefore contains progress on actions within the 2023/24 Service Plan which are on-going.

### 9. Service Risks Mitigation

9.1 The Service maintains a Service Risk Register. Following a review of existing Service Risks to bring these into line with the Council's new Risk Management Strategy and procedure, these will be uploaded onto PRMS for monitoring and scrutiny once work on the Delivery Plan is completed. The list of Service Risks is outlined in **Appendix 4**.
