#### **4. Impacts**

4.1 In Highland, all policies, strategies or service changes are subject to an integrated screening for impact for Equalities, Poverty and Human Rights, Children's Rights and Wellbeing, Climate Change, Islands and Mainland Rural Communities, and Data Protection. Where identified as required, a full impact assessment will be undertaken.

4.2 Considering impacts is a core part of the decision-making process and needs to inform the decision-making process. When taking any decision, Members must give due regard to the findings of any assessment.

4.3 This is an update report and therefore an impact assessment is not required.

#### **5. Background**

5.1 The Council is required to prepare a Code of Corporate Governance on an annual basis. This requirement is based on advice from Chartered Institute of Public Finance and Accountancy (CIPFA) and the Society of Local Authority Chief Executives (SOLACE) on best practice on this matter.

5.2 The Council has also agreed that the Audit Committee would receive an annual report on the local Code to ensure proper scrutiny.

5.3 CIPFA and SOLACE published a Guidance Note for Scottish Authorities; Delivering Good Governance in Local Government. This provides guidance on implementing the Framework and provides an important foundation to enable local authorities to review effectiveness and to identify continuing improvements in governance arrangements

5.4 The Framework and Guidance are based on seven core principles each with a number of sub-principles. The core principles are:-

- A. Behaving with integrity, demonstrating strong commitment to ethical values, and respecting the rule of law.
- B. Ensuring openness and comprehensive stakeholder engagement
- C. Defining outcomes in terms of sustainable economic, social and environmental benefits
- D. Determining the interventions necessary to optimise the achievement of the intended outcomes
- E. Developing the authority's capacity including the capability of its leadership and the individuals within it
- F. Managing risks and performance through robust internal control and strong public financial management
- G. Implementing good practices in transparency, reporting and audit to deliver effective accountability.

- 5.5 This report advises on the status of the actions identified and agreed in the Local Code of Corporate Governance for 2024/25 and presents the proposed Code of Corporate Governance for 2025/26 for approval.

## 6. Local Code of Corporate Governance 2024/25

- 6.1 The Code of Corporate Governance 2024/25 was agreed by this Committee in November 2024 and a copy can be found at :-  
[https://www.highland.gov.uk/download/meetings/id/84243/item\\_3\\_code\\_of\\_corporate\\_governance\\_-\\_2024-25\\_code](https://www.highland.gov.uk/download/meetings/id/84243/item_3_code_of_corporate_governance_-_2024-25_code)
- 6.2 The progress in delivering the actions set out in the Code is monitored quarterly through the Council's Performance Recording and Management System (PRMS). The 2024/25 Code contained a total of eight-two actions, seventy-six of which are shown as complete or on target. The remaining actions which have been identified as having some slippage relates to:
- **Financial Regulations and Contract Standing Orders support the Council's ethical values and are reviewed regularly:** Contract Standing Orders were updated in March 2024 for the forthcoming year. Some changes have been made to the Financial Regulations including revising Instruction Notes, however, further revisions are required to reflect the new Council structure and changes in officer responsibilities, and changes due to implementation of the new Corporate Financial System.
  - **Scheme of Delegation sets out delegated authority, reviewed annually:** A full review had been planned for March 2025, but this was limited to amendments which would facilitate timeous responses to energy consent applications. A revised target of October 2025 has been set for this action.
  - **Service Risk managed and reported to Strategic Committees:** Resources have been directed to the Operational Delivery Plan but key risks for each project and workstream have been identified, assessed and reported to the Strategic Committees.
  - **Partnerships delivery efficiencies & service improvements:** The savings and efficiencies to be delivered in partnership with NHS Highland for Adult Social Care are not progressing as quickly as required.
  - **PSN Accreditation providing assurance about network and infrastructure security:** There was a delay in PSN accreditation for 2025 due to data centre transformation. The target is now for the end of the calendar year.
