DO NOT SCALE

TECHNICAL CONSTRAINTS

- Site Boundary
- Land Ownership Boundary
- Existing fencing
- To be cleared
- Existing Watercourse
- Bank to be retained
- Secure boundary fencing 1.2m high
- Existing trees to be retained
- Existing vegetation to be retained
- Existing trees to be retained
- Pastured Land to be reseeded and made good

FEATURES TO BE MAINTAINED AFTER COMPLETION OF THE PROJECT

- Existing vegetation to be retained
- Existing trees to be retained
- Timber fence and rail fencing
- Deer fencing with beech gates, 2.4m high
- Vehicular access roads
- Landfill Screen
- Woodland area including edge
- Clay pit area, including edge
- Internal flower grass species
- Wetland area with emergent plants and reeds
- Steep to EBB Bank River
- Water bodies and drainage ditches, dams or walls
- Water meadow and grassy areas of little ecological importance
- Impacted areas to be retained for the Site Location and the south. Cells are to be cleared and removed, new trees to be planted and areas to be reinstated. This will reflect a 'natural design' principle.
- Existing features to be retained to be added to retained trees and stimulate regeneration
- Existing features to be retained to be treated as special concern areas.

NOTES

1. Retained features to be retained for the Site Location and the south. Cells are to be cleared and removed, new trees to be planted and areas to be reinstated. This will reflect a 'natural design' principle.
2. Retained features to be retained to be added to retained trees and stimulate regeneration

Features = the number and location to be treated as special concern areas.
