## **SECTION 1 – OVERVIEW**

### **1. SCOPE**

- 1.1 The Local Authority Accounts (Scotland) Regulations 2014 are in force. The Board, Officers, Partners and anyone acting on behalf of the Board shall observe these Regulations and supporting Instruction Notes. The supporting Instructions Notes are held as a separate internal document maintained by Assessor's nominated staff.
- 1.2 Any contravention of or potential non-compliance with these Regulations will be reported immediately to the Treasurer, who may discuss the matter with the Assessor as appropriate, to determine any action to be taken.
- 1.3 These Regulations will be applied and interpreted in a manner which takes account of the obligations contained within the Board's Contract Standing Orders and the Scheme of Delegation.

### **2. RESPONSIBILITIES**

#### **2.1 Board**

- 2.1.1 The Board and its officers will continuously strive to secure Best Value by way of economic, efficient and effective use of resources.
- 2.1.2 The Treasurer, in consultation with the Assessor, as appropriate, will advise the Board on the appropriate financial policies and guidance.

#### **2.2 Treasurer**

- 2.2.1 These Financial Regulations detail the responsibilities of the Treasurer, who has been appointed as the “Proper Officer” of the Board, in terms of Section 95 of the Local Government (Scotland) Act 1973. The post holder is responsible for the proper financial administration of the Board's affairs and acts as financial advisor to the Board.
- 2.2.2 The Treasurer, in fulfilling their duties, complies with the requirements of the CIPFA Statement on the role of the Chief Financial Officer in Public Sector Organisations.
- 2.2.3 Any reference in these Regulations to the Treasurer includes those specifically authorised by them to undertake the various functions concerned.

#### **2.3 Assessor**

- 2.3.1 The Assessor is responsible for overseeing the implementation of the Local Code of Corporate Governance and monitoring its operation; reviewing the operation of the Local Code of Corporate Governance in practice and reporting annually to the Board on compliance with the Local Code and any changes required to maintain its effectiveness.
- 2.3.2 The Assessor will ensure that all relevant employees are aware of these Regulations and that they are fully complied with.
- 2.3.3 All actions affecting the Board's finances should only be conducted by properly authorised employees. In respect of delegated activity, the Assessor will establish a clear and effective

framework of authorisation.

2.3.4 The Assessor and other persons authorised by them will ensure that only expenditure within the legal powers of the Board is incurred. Where this is not clear, the authorised person will consult the Assessor prior to incurring such expenditure.

2.3.5 The Assessor will ensure that all spending is within capital and revenue estimates and conforms to proper accounting standards and will seek clarification of the proper classification, if required, from the Treasurer.

## 2.4 Personal Responsibilities

2.4.1 All officers and Members of the Board should strive to achieve Best Value and avoid legal challenge to the Board.

2.4.2 In the course of their duties officers and Members will see financial and other materials of a confidential nature. There is a general responsibility that all such matters are not disclosed except to authorised personnel. The requirements of Data Protection legislation (see Section 26.1.4) must always be observed.

2.4.3 Officers and Members who serve in a decision-making capacity as members of outside bodies, whether companies, trusts or other associations owe a duty and responsibility to those bodies which are separate and distinct from their duties owed to the Board. On occasions, it is likely that their duties owed to the outside body and to the Board will conflict. The Highland Council has approved guidance on this subject which should be followed, 'Guidance to Councillors and Officers who service on Outside Bodies'.

2.4.4 All officers must report to their line manager any illegality, impropriety, breach of procedure or serious deficiency in the provision of service. Employees are able to do this without fear of recrimination providing they act in good faith via the Board's Whistleblowing Policy. Where officers are aware of, or suspect that fraud has been committed, the Corporate Audit & Performance Manager at Highland Council must be contacted in accordance with the requirements of Financial Regulations 15.1.5 and 15.1.6.

## 3. CORPORATE GOVERNANCE

3.1 Corporate governance is about the structures and processes for decision making and accountability, controls and behaviour throughout the Board. The financial affairs of the Board shall at all times be conducted in accordance with the principles set out in the CIPFA/SOLACE Guidance; Delivering Good Governance in Local Government (updated 2016):

- **Integrity:** behaving with integrity, demonstrating strong commitment to ethical values, and respecting the rule of law. Members and officers should behave with integrity and lead a culture where acting in the public interest is visibly and consistently demonstrated. This requires honesty, selflessness and objectivity and high standards of propriety and probity in the stewardship of the Board's funds and the management of the Board's affairs. Integrity is dependent on the effectiveness of the control framework and on the personal standards and professionalism of Members and employees.
- **Openness:** ensuring openness and comprehensive stakeholder engagement. Anyone with an interest in the Board's affairs should have confidence in the decision-making

and management processes and the individuals involved in them. This confidence is gained through openness in the Board's affairs and by providing full, accurate and clear information which leads to effective and timely action and scrutiny.

In addition to the overarching requirements for acting in the public interest above, good governance also requires commitment to and effective arrangements for:

- Defining outcomes in terms of sustainable economic, social and environmental benefits;
- Determining the interventions necessary to optimise the achievement of the intended outcomes;
- Developing the organisations capacity, including the capability of its leadership and the individuals within it;
- Managing risk and performance through robust internal control and strong public financial management;
- Implementing good practices in transparency, reporting and audit to deliver effective accountability.

- 3.2 The Board has integrated the CIPFA/IFAC International Framework: Good Governance in the Public Sector and the CIPFA/SOLACE Delivering Good Governance in Local Government: Framework (2016 Edition) into a Local Code of Corporate Governance which is prepared annually by the Board and is consistent with the principles of these frameworks.
- 3.3 The Corporate Audit & Performance Manager of the Highland Council shall provide an annual Statement on Internal Control to the Board that can be used to inform the Annual Corporate Governance Assurance Statement. The Statement on Internal Control must conclude on the overall adequacy and effectiveness of the Board's framework of governance, risk management and control.

#### **4. FRAMEWORK FOR FINANCIAL ADMINISTRATION**

- 4.1 These Regulations may only be amended by the Board, following advice from the Assessor and the Treasurer, as appropriate.
- 4.2 The Treasurer as the 'Proper Officer' for the proper administration of the Board's financial affairs will oversee the operation of these Regulations within the Board. These provide all officers and Members with the written framework which governs the Board's financial affairs.
- 4.3 All Instruction Notes issued in terms of these Regulations are issued with the same status and authority as if they were contained within these Regulations. Compliance with the Instruction Notes is mandatory in the same way as the Regulations.
- 4.4 These Regulations and supporting Instruction Notes are not exhaustive and supplementary guidance will be made available by way of manuals, procedures, and policy documents. However, not every eventuality can be foreseen, or every circumstance considered. Therefore, there is a general responsibility for all officers to act properly where instances of uncertainty arise and to seek advice from the Treasurer and their staff.
- 4.5 These Regulations may be varied or revoked by the Board and any variation or revocation will be effective from the first working day after the conclusion of the Board meeting at which they are approved.

4.6 Any matters requiring legal interpretation will be referred to the Board's legal advisers.

## **6. CAPITAL EXPENDITURE PLANNING**

### **Introduction**

**The Board does not currently have a capital budget. In the event that there is a requirement to incur capital expenditure, the Board will comply with this section of the Regulations.**

**In determining capital expenditure and borrowing levels, the Board must have regard to the Prudential Code for Capital Finance in Local Authorities, a professional Code developed by the Chartered Institute of Public Finance and Accountancy (CIPFA) that sets out a framework for self-regulation of capital spending.**

**To facilitate the decision making process and support capital investment decisions, the Prudential Code requires the Board to agree and monitor a number of prudential indicators.**

#### **Instruction Note: Definition of Capital Expenditure**

- 6.1 The following procedures would apply to the preparation of the Board's Capital Plans:
  - 6.1.1 The Treasurer in consultation with the Assessor, and other officers as necessary, will coordinate the preparation of the Capital Plan.
  - 6.1.2 In order to prepare the above plan, the Assessor will provide any information as requested, in line with guidance issued relating to Corporate Option Appraisal Methodology. The information will be consistent with the Service Plan and link to the revenue budget.

6.4 Subject to section 7.4 of these Regulations, approval of the capital programme gives the Assessor authority to incur expenditure on specific projects.

## **7. CONTROL OF CAPITAL EXPENDITURE**

### **Introduction**

**The Board does not currently have a capital budget. In the event that there is a requirement to incur capital expenditure, the Board will comply with this section of the Regulations.**

**This section details the Board's requirements for monitoring capital expenditure in relation to the approved Capital Programmes. It also provides guidance for dealing with emergencies and the subject of consultation approvals. Any matter having a material effect on the Board's finances should be subject to consultation with the Treasurer before any provisional or other commitment is incurred, or before reporting details to the Board.**

7.1 The Board will monitor and regulate the financial performance of the Capital Programmes for which they are responsible.

The requirements of Board's Contract Standing Orders (see Section 12.1) must be observed with regards to any capital expenditure commitments.

7.2 Subject to Section 7.4 of these Regulations, capital expenditure will only be incurred on projects included in the Capital Programme, unless a report revising the programme has been approved by the Board for incurring expenditure in that year.

7.3 The Assessor, after consultation with the Treasurer, may alter a Capital Programme of the Board, within the approved programme, in any of the following ways:

- by accelerating the progress on a project by deferring the start of other projects within the programme;
- by spending on a project programmed to start at a later date in the year where delays are occurring generally in the Programme; or
- by delaying or accelerating projects programmed to start at a later date where project over/underspends are identified.

Any changes made should be reported to the Board.

7.4 The Assessor, in consultation with the Treasurer, will provide regular budget monitoring statements with actual expenditure to date and the predicted year end position to the Board. Explanations for any significant variances will be provided by the Assessor who must ensure that the provision in the Capital Programme is not exceeded and that the expenditure conforms to the requirements of these Regulations. At the completion of each project on the Capital Programme, the Assessor will provide the Board with a report on the total cost of the project against the original budget and timescale.

## **8. REVENUE ESTIMATES**

### **Introduction**

This section details the Board's requirements for the preparation of revenue estimates. The

approval of the revenue estimates by the Board gives the Assessor the authority to incur appropriate expenditure in accordance with those estimates.

- 8.1 The format of the revenue estimates, information required and prescribed timescales to be met will be determined by the Treasurer. Detailed guidance will be issued to the Assessor for the preparation of revenue estimates. Estimates should focus on delivering the outcomes and objectives agreed in the Board's Service Plan.
- 8.2 The Assessor in conjunction with the Treasurer will annually prepare revenue estimates of income and expenditure for the forthcoming financial year. In addition, revenue estimates will be prepared on a cycle that permits appropriate medium and long term financial planning to be undertaken on a rolling basis to ensure the Board's Medium Term Financial Plan is kept under review.
- 8.3 The relevant Senior Officer will annually prepare revenue estimates of income and expenditure for the forthcoming financial year in respect of the Housing Revenue Account for detailed consideration by the relevant Services Committee who will make recommendations to the Council.
- 8.4 The Board will review and approve the revenue estimates, with any revisions as necessary, and determine the requisitions to be charged to constituent authorities.
- 8.5 Approval of the revenue estimates gives the Assessor authority to incur relevant expenditure and to raise appropriate income, within the scope of Board's policy to meet their budget targets.
- 8.6 In meeting the CIPFA Financial Management Code (Standard F) the Board will carry out a Financial Resilience Assessment as part of the Board's Medium to Long term Financial Strategy.

## **9. CONTROL OF REVENUE EXPENDITURE INCLUDING VIREMENT**

### **Introduction**

This section provides details of the Board's requirements for budgetary control and virement and also refers to delegated powers regarding the incurring of expenditure in emergency situations.

**Instruction Notes:** Budgetary Control  
Journal Entries  
Budget Virement

- 9.1 It will be the duty of the Assessor to monitor and control revenue budgets. In particular the Assessor should ensure that an accountable budget holder is identified for items of income or expenditure.
- 9.2 In order to assist in this matter, the Treasurer will ensure that an appropriate framework for budgetary management and control is in place and that regular financial reports are produced in an appropriate format for monitoring purposes. The Assessor must ensure that revenue monitoring reports contain sufficient explanatory detail, particularly with regard to reporting significant adverse or favourable revenue variances. The Instruction Note on Budgetary Control provides this framework and sets out the responsibilities of Budget Holders, the Assessor and the Treasurer. Budget holders must ensure that expenditure

charged against cost centres for which they are responsible is necessary for the conduct of the Board's business and is duly authorised and correctly classified.

- 9.3 The Assessor in consultation with the Treasurer will produce summarised monitoring reports for quarterly Board meetings. These reports will include details of actual expenditure to date and the predicted year end position along with a narrative position including reasons for variances and impact on forecasted outturn.
- 9.4 The Assessor has the following delegated powers in respect of expenditure of an emergency nature:
  - 9.4.1 To authorise expenditure of an urgent/emergency nature in consultation with the Treasurer, provided that the expenditure is reported to the first available meeting of the Board.
  - 9.4.2 To take such immediate action, as may be necessary, to protect the interests of the Board in relation to:
    - Emergencies arising from industrial action
    - Any other emergency which, in the opinion of the Assessor, in consultation with the Convenor, requires such action.
- 9.5 The Treasurer should report on any expenditure which is incurred under Section 84 of the Local Government (Scotland) Act 1973 (as amended), relating to emergencies or disasters involving destruction of or danger to life or property. Such expenditure should be reported to the first meeting of the Board, after the expenditure has been incurred.
- 9.6 The procedures for effecting accounting adjustments by journal transfer are provided in the Instruction Note – Journal Entries.
- 9.7 Virement is available to the Assessor in order to ensure the proper management of the budget and to contain overspending. All requests for Virement must be made in writing to the Treasurer or a member of the Treasurer's staff and must follow the principles referred to in the Instruction Note – Budget Virement.
- 9.8 Maintenance of appropriate costing systems is essential for the regular monitoring of performance and allocation of costs in the financial ledger. Reconciliation of any costing systems not linked to the financial ledger system will be carried out by the department on a regular basis following any necessary guidance from the Treasurer.

10.4 All cheques including Post Office banking payment forms will be ordered on the authority of the Treasurer who will make the necessary arrangements for their safe custody.

10.5 All Board employees and third parties acting on behalf of the Board involved in cheque handling or control will be made aware that:

10.5.2 Requests to issue or re-issue a cheque to a third party will normally be refused. The Board is bound to pay its creditors but not to settle affairs on their behalf. Under exceptional circumstances the Treasurer may alter the name of the payee and delete the crossing.

10.5.3 Where a creditor reports the non-receipt or loss of a cheque, the Creditors Section, of the Finance Service at Highland Council, will only issue a replacement cheque where the cheque has not been cashed, the bank has 'stopped' the cheque and an indemnity certificate has been completed by the creditor.

10.6 The Treasurer will make all necessary arrangements through the use of online banking, to enable appropriate transactions to be processed through the Bankers Automated Clearing System (BACS) and the Clearing House Automated Payments System (CHAPS).

10.7 The Treasurer shall be responsible for giving any indemnity required by the Highland Council's bank regarding the signature of cheques by mechanical means, or where pre-signed computer cheques are used, or where the services of a security firm are used for the deposit or receipt of cash to the bank.

## **11. CONDUCT OF EMPLOYEES AND MEMBERS**

### **Introduction**

The Bribery Act 2010 requires commercial organisations, including Valuation Joint Board's, to have adequate procedures in place to prevent bribery. Two of the key procedures in this respect are the Code of Conduct for Employees and the National Code of Conduct for Councillors which can be found at:

[www.standardscommissionscotland.org.uk/codes-of-conduct/councillors-code-of-conduct](http://www.standardscommissionscotland.org.uk/codes-of-conduct/councillors-code-of-conduct)

Members and employees are both personally liable for their conduct and as such must comply strictly with the terms of these Codes.

11.1 Officers and Members must be aware that the Bribery Act 2010 introduced four offences as follows:

- Offering/promising/giving of a bribe;
- Agreeing to/receiving/accepting a financial or other bribe;
- Bribery of a foreign public official;
- Failure of an organisation to prevent a bribe being paid for or on its behalf.

11.2 The Act states that bribery is a serious criminal offence. The Board's position is that it will not tolerate bribery in the administration of its duties and therefore any such activity is likely to involve disciplinary proceedings against the individuals concerned.

11.3 The Assessor is responsible for ensuring that all staff are aware of the terms of the Code of Conduct for Employees and that they comply with the conditions therein. The code provides guidance in the following areas:

- Relationships, including those with contractors and suppliers
- Conflicts of interest
- Offers of hospitality and gifts

11.4 Members hold public office under the law and must observe the rules of conduct stemming from the law, the National Code of Conduct for Councillors, guidance from the Standards Commission and the rules, standing orders and regulations of the Board. It is each Member's personal responsibility to comply with these and review regularly, and at least annually, their personal circumstances with this in mind, particularly when their circumstances change. Members must not, at any time, advocate or encourage any action contrary to the Code of Conduct.

## **12. CONTRACT PROCEDURES FOR SERVICES, GOODS AND WORKS**

This section refers to the Board's contract procedures.

Full procurement procedures and guidance are available within the Board's Policy document entitled, Contract Standing Orders.

All contracts above this value must be signed by an officer of the Board with delegated authority to sign contracts as outlined in the Scheme of Delegation.

12.6 Where contracts are administered on behalf of the Board by persons other than the Board's own officers, the Assessor should ensure that those persons comply with the Board's Financial Regulations and Contract Standing Orders as if they were Officers of the Council. The Assessor and the Treasurer should be entitled to inspect all records and documents relating to such contracts.

12.7 When entering into contracts, staff must not deviate from the Board's standard purchasing terms unless this is formally agreed by the Treasurer.

12.8 The Assessor shall ensure there is rigorous ongoing monitoring of any contract or partnership agreement. Regular progress reporting to the Board accounting for any variances in cost or timescale for delivery to ensure transparency and appropriate performance management and governance is required for arrangements over £4m. For contract changes within the scope of the agreed business case and subsequent contract the contract owner must follow the variation process outlined in the Highland Council's procurement manual, for any changes out with agreed terms and approval limits the guidance of the Commercial & Procurement Shared Service must be sought. The Standards define Internal Audit as “an independent, objective assurance and consulting activity designed to add value and improve an organisation’s operations. It helps an organisation accomplish its objectives by bringing a systematic, disciplined approach to evaluate and improve the effectiveness of risk management, control, and governance processes.
- 15.1.2 The purpose, authority and responsibility of Internal Audit within the Highland Council are described in the Internal Audit Charter. The Charter sets out the independent role of the Chief Audit Executive in complying with the requirements of the PSIAS.
- 15.1.3 The Corporate Audit & Performance Manager of the Highland Council must ensure an annual Statement on Internal Control is provided to the Board that can be used to inform the Annual Governance Statement. The Statement must conclude on the overall adequacy and effectiveness of the Board’s framework of governance, risk management and control. This work relates to Section 5 of the Local Authority Accounts (Scotland) Regulations 2014 where the local authority has a statutory responsibility for maintaining a system of internal control including the management of risk and an effective internal audit function.

The Corporate Audit & Performance Manager will take such steps as are considered necessary to investigate any such matters.

The Board has an Anti-fraud and Anti-corruption Policy which outlines the Board’s commitment to creating an anti-fraud culture and maintaining high ethical standards in the administration of public funds. The Assessor is responsible for ensuring that Board employees are aware of this policy and the need for adherence.

- 15.1.6 The Board has a Whistleblowing Policy which allows employees to raise any concerns regarding malpractice or wrongdoing and receive feedback. The Policy also outlines

how concerns are dealt with and actions which may be taken including:

## **16. INTERNAL CONTROL AND AUTHORISATION**

### **Introduction**

This section provides advice on internal control and authorisation. The Assessor is required to ensure the principles outlined are incorporated in the working practices of the organisation.

### **Instruction Notes: Authorisation and Access Control**

#### **16.1 Internal Control**

16.1.1 Internal control is defined as the whole system of controls, financial or otherwise, established by management, to provide reasonable assurance of:

- effective and efficient operations
- reliable financial information and reporting
- safeguarding assets

- compliance with laws and regulations

16.1.1 Internal controls will vary throughout the Board, depending on activity, size, volume of transactions and geographical distribution. However, three types of internal control will apply as a minimum requirement:

- 16.1.1.1 Separation of Duties
- 16.1.1.2 Internal Check
- 16.1.1.3 Management Review

16.1.2 Separation of duties will be introduced so that individuals cannot influence financial transactions from start to finish. Therefore, transactions will be progressed in stages by different people. For example, orders could be prepared by one person, received and checked off by a second person, and invoice settlement handled by a third; similarly, debtor accounts will be raised, payments received, and income controlled in separate offices. As there are only a small number of employees available alternative arrangements with appropriate controls have been agreed with the Treasurer.

16.1.3 To reduce the chance of errors, all financial transactions must be subject to internal check at appropriate stages.

16.1.4 For the purposes of security, key systems are protected and as such it is imperative that passwords are not disclosed under any circumstances. The procedures for access controls are detailed in the Highland Council's Information Security & Assurance Policy.

16.1.5 In order to provide assurance as to the effectiveness of internal controls within financial systems the Corporate Audit & Performance Manager of the Highland Council must be consulted and give assurance on the adequacy of internal controls when any financial system is being introduced, or materially altered, as outlined in Section 15.1.4 of these Regulations.

## **16.2 Authorisation and Access Control**

16.2.1 The authorisation of financial transactions is achieved within the Board's main financial systems by way of embedded access rights which are granted to officers on the basis of business and security requirements. These access rights should be broadly defined in an Access Control Policy, specific to each financial system. The requirements with regard to access control and authorisation are provided in the Authorisation and Access Control Instruction Note.

16.2.2 The Assessor is responsible for determining those officers responsible for the processing and authorising of financial transactions to meet the needs within the management structures of the organisation.

16.2.3 The access rights of users of all financial systems should be reviewed and verified on a regular basis, at least annually, with reviews of higher access users undertaken more frequently.

16.2.4 Where access is granted to a single user to a system or different systems that allow the user to complete a financial transaction from start to finish, the requirements referred to at section 16.1.2 above must be strictly observed at all times by the user concerned.

16.2.5 The Board will only enter into transactions that are required for the essential conduct of its business. Consequently, all financial transactions will be authorised before being carried out.

16.2.6 By authorising financial transactions, officers are accepting responsibility for them, confirming immediately that they are satisfied the following are true:

Orders: Orders must meet an evidenced organisation need and must be clear and unequivocal in their requirements. They must be placed with formally contracted suppliers/service providers/contractors. Where no contract exists, the requirements of the Board's Standing Orders Relating to Contracts must be adhered to in terms of establishing one.

Timesheets and overtime claims: The hours stated are actually worked by the Board employee concerned, have not been previously paid, and are in accordance with a contract of employment.

Expense claims: The activity claimed was approved in advance; performed in the manner stated and was necessary to the business of the Board. The claim conforms with the relevant rates or entitlements in terms of the Board's Travel and Subsistence policy.

Petty cash claims (imprest): The expenditure incurred was for items of a minor nature (less than £25); is fully supported by till receipts or other reliable vouchers; is allocated to valid account codes; the imprest account has been inspected and the cash in hand checked in accordance with the correct procedures referred to at Section 23.

Invoices (including interim contract payments): The goods or services have been received by the Board, a valid official order number is quoted and met the required quality standard, is a legitimate expense, the price paid is consistent with order details or other contractual arrangement with the supplier, the invoice has not previously been paid, and the costs have been allocated to appropriate codes in the Board's accounting records.

Sales Ledger (including sundry debtors): The account represents the amount due for services or supplies rendered for a statutory fee, or an undischarged debt, is for the amount obtainable under the current scale of charges is correctly calculated and payment has not previously been rendered.

16.2.7 Officers must only authorise a transaction when they are aware of its circumstances; are given access to documents supporting it if required and are in a position to challenge it.

16.2.8 Officers will not authorise transactions in which they have a personal interest.

18.2.9 When officers authorise manual transactions, they must sign their name in full. The use of initials alone or the use of an ink stamp is not acceptable.

## 20. PAYMENT OF INVOICES

### Introduction

This section details the Board's requirements for the payment of invoices. It includes procedures to ensure that the Board only makes payments which are due to be paid and for the correct amount.

The Assessor will ensure that appropriate and efficient systems operate within the organisation for the timely processing of invoices. Performance Indicators published by the Highland Council includes an examination of the performance of the number of invoices paid within 30 calendar days of receipt, as a percentage of all invoices paid which is a nationally bench marked indicator and contributes to meeting the Accounts Commission Direction on public performance reporting.

### Instruction Note: Receipt of Goods and Payment of Creditor Invoices

20.1 Apart from petty cash and other payments from imprest accounts, payments from the Board will be via BACS (Bankers Automated Clearing Service) or Highland Council purchase cards. In exceptional circumstances where neither of these payment methods can be used, payments may also be made by cheque or CHAPS (Clearing House

Automated Payment System). Each request for a CHAPS payment will be approved by the appropriate budget holder and the payment from the bank account will be authorised by Highland Council approved bank signatories.

20.2 Officers will arrange timely processing of invoices for payment after ensuring that:

- 20.2.1 Expenditure is on items or services which it is within the Board's legal powers to incur;
- 20.2.2 Goods, materials or services to which the invoice relates have been received, and are in accordance with the purchase order;

- 20.2.6 Invoices have been made out by the supplier of the goods, services etc., not an officer of the Board.

20.3 No supplies, services or works should be paid for until they have been formally accepted and any required testing carried out. In the event that stage payments are required, formal acceptance of that stage or milestone and any required testing must be completed and documented prior to payment being made.

20.4 Payments will only be made on duplicate or photocopied invoices where the Budget Holder has undertaken sufficient checks to ensure that the original invoice has not been previously processed. If the invoice relates to a purchase order, it should agree to an existing unmatched purchase order. The inability to match a copy invoice should alert the Budget Holder to the possibility that it is a duplicate invoice. If the invoice does not relate to a purchase it should be a unique invoice number to that supplier.

20.5 The Creditors Section of the Highland Council will run monthly duplicate payment reports to identify and recover any duplicate payments and notify the Assessor as appropriate in order that remedial action is taken to prevent further recurrence.

20.6 Where the sum invoiced by a supplier is incorrect, the invoice should be returned to the supplier for alteration. Alternatively, the supplier may issue a credit note which will be processed through the Purchase Ledger module of Integra.

20.7 Recharges for services supplied by the Highland Council are invoiced by the Treasurer's office quarterly.

20.8 The Treasurer will annually issue instructions to the Assessor on the procedure to be followed regarding unpaid invoices, at the end of the Financial Year.

This section refers to the Board's Records Management process, including the process for the retention, storage and disposal of records.

24.1 Financial records will be managed in accordance with guidance determined by the Treasurer. These arrangements will meet all legal obligations and ensure records enduring historical value are transferred to an appropriate archive repository for long-term preservation. Key considerations in deciding how long records and information should be retained include:

- the Data Protection legislation which specifies that personal data should not be retained longer than is needed either in the corporate record or in personal email and personal filing systems. Furthermore, this information should not be shared with any party or individual with whom there is no Data Sharing Agreement in place.
- Freedom of Information legislation
- Public Records (Scotland) Act 2011

24.2 The Board's Retention Schedules have been designed to reflect the procedures for the management of physical and electronic records applicable to the functions of the Assessor and Electoral Registration Officer. The Schedule determines the length of time records are required to be kept and provides an authority against which those records can be disposed of. However, before any record is disposed of, reference must be made to the Records Retention & Disposal Policy and guidance on the Disposal of Records. Before disposing of any record, regardless of format or age, the Board has to ensure there are no ongoing requests for information involving that record and that all its business and legal needs have been met.

This should clearly identify the risk along with a brief description of how it is to be managed, and if the risk is to be adopted to a risk register.

25.4 All significant risks should be allocated to a responsible officer and should be managed through the development of appropriate actions, including target dates, which address the identified risks.
