

Welcome to Highland Council

Supporting Children and Young People
from our

Armed Forces community

English as an Additional Language (EAL)

Is there a language, other than English, spoken at home?

Has your child or young person been receiving support with English as an additional language in their previous school? This is sometimes known as EAL.

If you have answered 'yes' to either or both of these questions, please include this information in the school's enrolment form, and let your child or young person's new school know if they have had received any previous language support.

The school will then contact the Highland EAL Team on your behalf to make sure they can get the right help and support to your child as quickly as possible.

We understand how difficult it can be with the mobility of the Armed Forces and we want to help make sure the needs of your child or young person are met when you arrive in Highland.
