## Introduction

This Supporting Statement forms part of the Local Place Plan submission to The Highland Council and is accompanying the Garve and District Local Place Plan dated 23/10/2024.

Email address: hello@garve.org

## Regard given to the Local Development Plan

The Garve and District Boundary is wholly covered by the Highland-wide Local Development Plan (The Highland Council, 2012) plus, it currently straddles two Local Development Plans' areas:-

- West Highland and Islands Local Development Plan (*The Highland Council, 2019*)
- Inner Moray Firth Local Development Plan 2 (*The Highland Council, 2024*)

## Regard given to the National Planning Framework

In terms of national policies, at a community level the plan is in direct response to:-

- National Planning Framework 4 Delivery Programme (*Scottish Government, 2023*)
- National Planning Framework 4 (*Scottish Government, 2023*)

## Regard given to the Locality Plan

Garve and District also straddles three Highland Community Planning Partnership (HCPP) areas: Mid Ross Community Partnership and its two Local Plans – Dingwall Locality Plan (2019) and Conon Bridge Locality Plan; Skye, Lochalsh and West Ross Community Partnership; and Easter Ross Community Partnership.

## Reasons for amendments being sought to the Local Development Plan

The reasons for amendments to the Local Development Plan are provided in Section 9 of the Local Place Plan against the proposals relating to the Action Areas for Our Places, Our Environment, and Our Infrastructure.

## Community support for the Local Place Plan

The Company had just undertaken the final review of the Community's Action Plan during May 2024. This provided a clear indication of on-going community priorities carried forward to the Local Place Plan:-

- Connecting Communities - Community Transport Service

- Caring for our community
- Traffic calming measures
- Improving home energy efficiency
- Community renewable energy
- Community land (The GD CORE)
- Groups and events
- Improved access to Garve and District War Memorial
- Supporting local businesses
- Developing/enhancing footpaths

Using The National Standards of Community Engagement we issued a community survey in paper, digital, and fillable pdf formats. The paper copy was sent to every household and business in Garve and District. We also held an open day at Garve Public Hall and invited our community to share their thoughts about land and building use alongside any other ideas they had around future community development. Directors and Officers of the Company also made themselves available for one-to-one meetings either face to face or on-line and encouraged contact via all our communication channels - letters, emails, comments on [garve.org](http://garve.org), our digital community hub, comments on social media and messages received via any social media platforms.

We received 72 survey responses from an estimated adult population of 230 and we received 380 comments on our subject headings of Our People, Our Places, Our Environment and Our Infrastructure.

We are well versed in community engagement and for our area this is a good response.
