### **DECISION NOTICE OF THE HIGHLAND COUNCIL PLANNING REVIEW BODY**

---

- Application for review by Mr Bobby Ross
- Site address: Land 300M SW Of West Lodge, Roshven, Glenuig
- Proposal: Erection of House
- Reason for Notice of Review: Refusal of application by appointed officer.
- Related Plans:

<u>Type of Plan</u>	<u>Plan No.</u>	<u>Version</u>	<u>Date Plan Received</u>
Location Plan	2013007 01		16.07.2013

---

This Notice constitutes the formal decision notice of the Planning Review Body as required by the Town and Country Planning (Schemes of Delegation and Local Review Procedure) (Scotland) Regulations 2013.

The Planning Review Body **upheld** the Notice of Review, subject to the conditions below, namely:

1. No development shall commence until all of the matters specified below have been approved on application to the Planning Authority:
  - i. a detailed layout of the site of the proposed development (including site levels as existing and proposed);
  - ii. the design and external appearance of the proposed development;
  - iii. landscaping proposals for the site of the proposed development (including boundary treatments);
  - iv. details of access and parking arrangements; and
  - v. details of the proposed water supply and drainage arrangements.

**Reason:** Planning permission is granted in principle only and these specified matters must be approved prior to development commencing.

2. Any details pursuant to Condition 1 above shall show a development featuring the following elements:
  - i. The building shall be generally rectangular in shape and with traditional gable ends;
  - ii. The building shall not exceed 1.5 storeys in height;

- iii. The walls shall be finished in either a natural stone, timber cladding or a white wet dash render, or a combination of these materials;
- iv. The roof shall be symmetrically pitched between 40 and 45 degrees, finished in natural blue grey slate;
- v. The use of pitched dormers and chimneys will be encouraged;
- vi. Windows shall have a vertical emphasis;
- vii. A parking and turning area shall be provided on site for at least two vehicles

**Reason:** To ensure the building integrates satisfactorily with its landscape setting in accordance with Policy 28 of the Highland-wide Local Development Plan and the guidance in Supplementary Planning Guidance: Housing in the Countryside and Siting and Design.

3. Any details pursuant to condition 1 above shall include a detailed landscape plan and maintenance programme. This shall include details of boundary treatments and landscape planting around the boundaries of the site. The approved landscape plan shall be implemented in full during the first planting season following commencement of development, with maintenance thereafter being carried out in accordance with the agreed maintenance programme. For the avoidance of doubt, any trees or plants which within a period of five years from the completion of the development die, for whatever reason, or are removed or damaged, shall be replaced in the immediately following planting season with others of the same size and species.

**Reason:** In order to ensure adequate screening from any adjacent properties and the adjacent public road network, and that the approved landscaping works are properly undertaken on site in the interests of the general amenity of the area in accordance with Policy 28 of the Highland-wide Local Development Plan 2012.

4. No development shall commence until an appraisal to demonstrate that a sufficient private water supply can serve the development has been submitted to, and approved in writing by, the Planning Authority. This appraisal shall be carried out by an appropriately qualified person(s) and shall specify the means by which a water supply shall be provided and thereafter maintained to the development. Such appraisal shall also demonstrate that the sufficiency of any other supply in the vicinity of the development, or any other person utilising the same source or supply will not be compromised by the proposed development. The development itself shall not be occupied until the supply has been installed in accordance with the approved specification.

**Reason:** to ensure that an adequate private water supply can be provided to meet the requirements of the proposed development and without compromising the interests of other users of the same or nearby private water supplies in accordance with policy 28 of the Highland-wide Local Development Plan 2012.

5. No development shall commence until full details of all foul drainage infrastructure (including treatment plant and soakaway locations) have been submitted to, and approved in writing by, the Planning Authority. Thereafter, development shall progress in accordance with the approved details.

**Reason:** In order to ensure that private foul drainage infrastructure is suitably catered for, in the interests of public health and environmental protection in accordance with Policy 65 of the Highland-wide Local Development Plan 2012.

6. No development shall commence until full details of the means of construction and the final surface treatment of the realigned section of track, together with proposals for reinstatement of the superseded length of track, have been submitted to and

approved in writing by the Planning Authority. The re-aligned track and reinstatement works shall subsequently be undertaken in accordance with the approved plans.

**Reason:** The site is within the Morar, Moidart and Ardnamurchan National Scenic Area and in accordance with policies 57 and 61 of the Highland-wide Local Development Plan which seek to protect the special scenic qualities of the area.

7. As details pursuant to Condition 1 above, a minimum of two cross sections running through the site shall be submitted to and approved in writing by the Planning Authority. The details shall show the existing ground levels, proposed ground levels and proposed finished floor levels of the house hereby approved in principle and together with any related subsidiary buildings to be provided, all relative to a fixed datum point. The development shall not be carried out other than in accordance with the approved details.

**Reason:** to ensure that the development sits into and is subservient to the landscape in the interests of visual amenity and in accordance with Policy 28 of the Highland-wide Local Development Plan 2012.

8. Any details pursuant to Conditions 1 and 3 above shall include a plan outlining the extent of the residential curtilage to be associated with the development hereby approved. Thereafter, all land included within the residential curtilage delineated on the approved plan shall be taken as being the area to which the change in use of land permitted by this planning permission applies. For the avoidance of doubt, the use of any land lying outwith the residential curtilage delineated on the approved plan shall remain unchanged by this planning permission.

**Reason:** In order to ensure that the residential curtilage is not excessive, in the interests of amenity, and to maintain the character of the area in accordance with Policies 28 and 49 of the Highland-wide Local Development Plan 2012.

## **REASON FOR DECISION**

The proposals accord with the provisions of the Development Plan and applicable supplementary guidance. There are no material considerations which would warrant refusal of the application.

## **TIME LIMITS**

In accordance with Section 59 of the Town and Country Planning (Scotland) Act 1997 (as amended), an application or applications for the approval of matters specified in conditions attached to this planning permission in principle must be made no later than whichever is the latest of the following:

- i. The expiration of THREE YEARS from the date on this decision notice;
- ii. The expiration of SIX MONTHS from the date on which an earlier application for the requisite approval was refused; or
- iii. The expiration of SIX MONTHS from the date on which an appeal against such refusal was dismissed.

The development to which this planning permission in principle relates must commence no later than TWO YEARS from the date of the requisite approval of any matters specified in conditions (or, in the case of approval of different matters on different dates, from the date of the requisite approval for the last such matter being obtained), whichever is the later. If development has not commenced within this period, then this planning permission in principle shall lapse.

## **INFORMATIVES**

### **Accordance with Approved Plans & Conditions**

You are advised that development must progress in accordance with the plans approved under, and any conditions attached to, this permission. You must not deviate from this permission without consent from the Planning Authority (irrespective of any changes that may separately be requested at the Building Warrant stage or by any other Statutory Authority). Any pre-conditions (those requiring certain works, submissions etc. prior to commencement of development) must be fulfilled prior to work starting on site. Failure to adhere to this permission and meet the requirements of all conditions may invalidate your permission or result in formal enforcement action.

### **Flood Risk**

It is important to note that the granting of planning permission does not imply there is an unconditional absence of flood risk relating to (or emanating from) the application site. As per Scottish Planning Policy (p.198), planning permission does not remove the liability position of developers or owners in relation to flood risk.

### **Scottish Water**

You are advised that a supply and connection to Scottish Water infrastructure is dependent on sufficient spare capacity at the time of the application for connection to Scottish Water. The granting of planning permission does not guarantee a connection. Any enquiries with regards to sewerage connection and/or water supply should be directed to Scottish Water on 0845 601 8855.

### **Septic Tanks & Soakaways**

Where a private foul drainage solution is proposed, you will require separate consent from the Scottish Environment Protection Agency (SEPA). Planning permission does not guarantee that approval will be given by SEPA and as such you are advised to contact them direct to discuss the matter (01349 862021).

### **Local Roads Authority Consent**

In addition to planning permission, you may require one or more separate consents (such as dropped kerb consent, a road openings permit, occupation of the road permit etc.) from TECS Roads prior to work commencing. Consent may also be required for any works impacting upon the road surface, the verge, drainage or any roadside footway or pavement.

These consents may require additional work and/or introduce additional specifications and you are therefore advised to contact your local TECS Roads office for further guidance at the earliest opportunity.

Failure to comply with access, parking and drainage infrastructure requirements may endanger road users, affect the safety and free-flow of traffic and is likely to result in enforcement action being taken against you under both the Town and Country Planning (Scotland) Act 1997 and the Roads (Scotland) Act 1984.

Further information on the Council's roads standards can be found at: <http://www.highland.gov.uk/yourenvironment/roadsandtransport>

Application forms and guidance notes for access-related consents can be downloaded from: <http://www.highland.gov.uk/yourenvironment/roadsandtransport/roads/Applicationformsforroadoccupation.htm>

### **Mud & Debris on Road**

Please note that it is an offence under Section 95 of the Roads (Scotland) Act 1984 to allow mud or any other material to be deposited, and thereafter remain, on a public road from any vehicle or development site. You must, therefore, put in place a strategy for dealing with any

material deposited on the public road network and maintain this until development is complete.

**Damage to the Public Road**

Please note that the Council, under Section 96 of the Roads (Scotland) Act 1984, reserves the right to recover all costs for repairing any damage to the public road (and/or pavement) which can be attributed to construction works for this development.

**Construction Hours and Noise-Generating Activities**

You are advised that construction work associated with the approved development (incl. the loading/unloading of delivery vehicles, plant or other machinery), for which noise is audible at the boundary of the application site, should not normally take place outwith the hours of 08:00 and 19:00 Monday to Friday, 08:00 and 13:00 on Saturdays or at any time on a Sunday or Bank Holiday in Scotland, as prescribed in Schedule 1 of the Banking and Financial Dealings Act 1971 (as amended).

Work falling outwith these hours which gives rise to amenity concerns, or noise at any time which exceeds acceptable levels, may result in the service of a notice under Section 60 of the Control of Pollution Act 1974 (as amended). Breaching a Section 60 notice constitutes an offence and is likely to result in court action.

If you wish formal consent to work at specific times or on specific days, you may apply to the Council's Environmental Health Officer under Section 61 of the 1974 Act. Any such application should be submitted after you have obtained your Building Warrant, if required, and will be considered on its merits. Any decision taken will reflect the nature of the development, the site's location and the proximity of noise sensitive premises. Please contact [env.health@highland.gov.uk](mailto:env.health@highland.gov.uk) for more information.

**Building Regulations**

Please note that Building Regulations and/or a Building Warrant may be applicable to some or all of the works described in this decision notice. You must check with the Council's Building Standards service prior to work commencing to establish what compliance or approval is necessary. If a warrant is required, you must not commence work until one has been applied for and issued. For more information, please contact Building Standards at [BuildingStandards@highland.gov.uk](mailto:BuildingStandards@highland.gov.uk) or on 01349 886606.

Dated: 22 August 2014 ..... Clerk to the Planning Review Body

**Notice Under Regulation 22 of the Town and Country Planning (Schemes of Delegation and Local Review Procedure) (Scotland) Regulations 2013**

1. If the applicant is aggrieved by the decision of the planning authority-
  - (a) to refuse permission for the proposed development;
  - (b) to refuse approval, consent or agreement required by a condition imposed on a grant of planning permission; or
  - (c) to grant permission or approval, consent or agreement subject to conditions,the applicant may question the validity of that decision by making an application to the Court of Session. An application to the Court of Session must be made within 6 weeks of the date of the decision.
  
2. If permission to develop land is refused or granted subject to conditions and the owner of the land claims that the land has become incapable of reasonably beneficial use in its existing state and cannot be rendered capable of reasonably beneficial use by the carrying out of any development which has been or would be permitted, the owner of the land may serve on the planning authority a purchase notice requiring the purchase of the owner of the land's interest in the land in accordance with Part V of the Town and Country Planning (Scotland) Act 1997.
