Description of Works

Conversion of smiddy to dwelling - AMENDMENT - Reposition the staircase to go up from left hand side instead of right. Relocate the downstairs toilet/shower room to the hall area, this will give a much larger kitchen, the window in the toilet/shower room will be where the back door was going to be located and finally to have patio doors to the rear of the kitchen where there is already a window opening. These changes make far better use of the floor area and we feel that his layout works much better for our needs.
