Your comments: I read with interest the question that was put forward for Uig School (q2). Even though some of the children are too young, p4 and upwards should be consulted and all the school children should have an opportunity to see Uig School and attend it for a hour or so but also the Ones in Portree to see the two primary schools there to give them an idea of facilities available there and then ask then the same question. North end should have a new school to replace the two elderly buildings. This is what both communities should be striving for.
